# AI and data show: September 2024

Join us for a recap of our live, 45-minute webinar that took place on the first Monday of September, perfect for a lunchtime catch-up. As the summer holidays ended and schools reopened, we kicked off Season 2 of the AI & Data Show.

The summer has been a whirlwind of AI and data developments. With a new government in place, new initiatives have emerged, and AI advancements have been rapid. If you've been offline for a few weeks, this essential update will bring you up to speed in just 5 minutes.

## What we discussed:

### EU AI Act timelines

Now that the EU AI Act is officially published in the OJEU, we'll outline the implementation timeline.

### How does AI work — part 1?

Still navigating the world of GPTs and LLMs? This episode featured Professor John Domingue, a renowned AI expert. He broke down the inner workings of machine learning and neural networks, equipping you with the knowledge to impress your clients. Plus, Professor Domingue fielded your questions and engaged in a thought-provoking debate with Matt on the ethical implications of an AI-driven world.

### Three great things

Our AI elves have spent the summer exploring the internet to uncover the most exciting AI developments since
