

Applications are now open for our EmpowHer leadership programme

Applications are now open for our EmpowHer leadership programme, designed to unlock the potential in female leaders.

We are thrilled to announce the launch of the **EmpowHer Leadership Programme**, in association with WHN Group, a transformative initiative designed exclusively for female business leaders.

Less than 20% of SMEs are led by women in the UK, a figure unchanged in the last decade. Getting funding is often cited as one of the biggest barriers to growth. Our mission is to help change this by providing a free development programme which equips women with the knowledge and practical tools to access funding and achieve the next stage in their growth journey.

For more information about our EmpowHer programme, [click here](#).

The application process closes on the 16 August 2024, and all applications must be submitted via our [registration form](#).

If you have any questions regarding the programme or the application process, please contact [Victoria Symons](#), head of corporate.
